Word comes from Harqua Hala that the Indians are quietly arming and trouble is expected. For the past few days every Indian who has come into camp has carried his Winchester and ammunition. The anticipated trouble if it occurs will be due to the action of a white man, Bloomer, taking up with an Indian's wife whom he refuses to surrender. Should trouble occur it may result seriously.—Yuma times.

Yesterday Sheriff Thompson accompanied by Chuck Rogers of Globe, passed through Florence en route to Yuma, having in charge five prisoners. Among the number was Phil Askins, who plead guilty to manslaughter for killing Charles Boquet recently. He is 74 years old and has a sentence of ten years. One Indian has a sentence of 25 years. The other three, one Mexican and two white men, are sentenced for grand larceny.—Tribune.

When court convenes on Monday, says the Journal Miner, Judge Hawkins has announced his intention of immediately ordering a venire for a United States grand jury. The docket for the present term of court is very large, and in order to dispose of it expeditiously, the judge has decided to run both the territorial and United States courts alternately, instead of following the more tedious plan in vogue recently of clearing the territorial docket, before commencing United States business. By the method outlined, he can dispose of the cases much more rapidly, and even then it will take two months to close the business for the term.

Deserving Praise.

We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. F. W. Smith & Co., Druggists.

A man named Santana Escarcia, a native of Campas, District of Montezuma, Sonora, Mexico, was blown to pieces while working on the grade of the U. V. Copper Co's roasts. He stuck his pick into a bank of dirt, when a heavy explosion followed, killing him instantly and throwing him about eight feet away. From appearances after the explosion it is presumed that the explosives were in some manner left there, although no work had been done upon the grade at this place in several years.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption and colds. If you have never used this great cough medicine one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed, or money will be refunded. Trial bottles free at F. W. Smith & Co's drugstore. Large bottles 50c. and \$1.00.

The Kid's Doings.

Sheriff Scott White brings in a story from Fort Bowie that is out of general. On Saturday last a man was found about two miles from the post making his way toward it. He was stark naked and his skin was horribly blistered by the sun. He claimed he was a cowboy from Apache county and that he had been captured by the Kid and two other Indians; that they took him to Stein's Pass range, twenty-four miles from Bowie. They took his horse, saddle and guns, stripped him of his clothes and compelled him to start off toward Bowie.

He is provided with clothes and is now at the post rather the worse for his experience. Mr. White did not learn the man's name.—Prospector.

Remarkable Fruit Shipments.

The fruit shipments of this spring are far in advance as to quantity, of anything before known from this valley. Until now, the Early Pringle and Newcastle varieties have been the only apricots shipped, but tomorrow, from Tempe, Chaplain Winfield Scott will commence the shipment of about 3000 pounds per day of Royals from his large orchard near the Arizona canal falls. Most of them will go eastward, largely to Texas points. Every night a heavy consignment of apricots goes to Los Angeles, and San Diego, a proposition that seems fully as extraordinary as "shipping coals to Newcastle." Apricots in this valley are well along in the season, and it would seem that peerless southern California would be by this time able to supply herself with the fruit from her far reaching orchards.—Gazette.

Twelve miles of track are already laid on the Bowie-Globe road. A track laying machine is making rapid headway with the work. The cars will be running to Solomonville by July 1.

Postmaster Arrested.

George A. Waterbury, postoffice inspector for this district and Postoffice Inspector Thrall, of San Francisco, have been looking into the affairs of the Mineral Park postoffice this week and made the discovery that many letters passing through that office had been tampered with and the sum of \$528 abstracted from two letters. James W. Haas, the former postmaster was arrested and charged with the crime. The matter was brought up before U. S. Commissioner Blakely Thursday and Mr. Haas was held in bonds of \$500 to appear before the U. S. grand jury at Prescott next month. U. S. Attorney Ellinwood appeared for the government. Mr. Haas may be able to clear himself of the charge, as the letters containing the money pass through several hands from the mailing to the delivery point. The two letters which contained the money were mailed in San Francisco and were addressed to W. H. Mills and G. B. Waterhouse, El Dorado Canyon. Mr. Haas gave bond with E. F. Thompson and William Richards, of Kingman, as sureties.—Miner.
